

## Flu Vaccination Live Radio Reads

### **Missing Out :60**

**ANNCR:** Let's face it, life looks a little different. During these times, we're doing our best to keep our minds and bodies strong.

And getting a flu shot helps us stay healthy, so we don't miss out on what matters.

Imagine trying to have game night at home,

Or having your weekly family movie night,

Or even going to your uncle's socially distanced cookout...

Yeah....you can't do *any* of that while sick with the flu. That's why it's important to be at our strongest.

Every year, *millions* of people in the U.S get the flu. But no one has time to miss out on moments that matter, especially now.

**So, get *your* flu shot. Find out more at [GetMyFluShot.org](http://GetMyFluShot.org). Brought to you by the AMA, CDC and the Ad Council.**

### **Missing Out :30**

**ANNCR:** In these times we're doing our best to be at our strongest. And getting a flu shot helps us stay healthy. So, we don't miss out on what matters.

Every year millions of people in the U.S get the flu. But no one has time to miss out on moments that matter, especially now..
